

Synthetic Data Evaluation Report

This report details the quality, privacy and utility evaluation metrics gained from the synthetic data, and visualisations to help interpret them.

Metrics Summary

Metric Name	Score
Exact Matches Total	1.0
Detection Total	0.0
Inference Protection Total	0.19
Singling Risk Total	0.1
Linkability Risk Total	0.01
Inference Risk Total	0.07
Boundary Adherence Total	1.0
Coverage Total	0.94
Complement Total	0.7
Similarity Total	0.88
Correlation Total	0.74
